## **ICSE 2023, EXAMINATION**

## Sample Question Paper-1

(Specimen paper issued by CISCE dated  $12^{th}$  July 2022 for 2023 Exam) **BIOLOGY (SCIENCE PAPER-3)** Class-10th

**SOLVED** 

| Time Allowed: 2 hours | Maximum Marks: 80 |
|-----------------------|-------------------|
|                       |                   |

Answers of this paper must be written on the paper provided separately.

You will not be allowed to write during the first 15 minutes.

This time is to be spent in reading the question paper.

The time given at the head of this Paper is the time allowed for writing the answers.

Section A is compulsory. Attempt any four questions from Section B.

The intended marks for questions or parts of questions are given in brackets [].

|   |       |     |   | SECT            | ION-A   |  |  |

- (iv) Choose the odd one out from the following terms and name the category to which the others belong: [5]
  - (a) Thyroid gland, Lacrimal gland, Pituitary gland, Adrenal gland.
  - (b) Detergents, Sewage, X-rays, Oil spills
  - (c) Spinal cord, Cerebrum, Pons, Cerebellum
  - (d) Chloroplast, Cell wall, Large Vacuoles, Centrosome.
  - (e) Auxin, Oxytocin, Gibberellin, Cytokinin
- (v) State the exact location of the following structures:
  - (a) Thylakoids
  - (b) Corpus callosum
  - (c) Chordae tendinae
  - (d) Prostate gland
  - (e) Adrenal glands

## **SECTION-B**

(Attempt any four questions from this Section)

- **3.** (i) Define Guttation.
  - (ii) Give one difference between Lenticels and Stomata.
  - (iii) What is Parthenocarpy? Give one example.
  - (iv) State Mendel's Law of Segregation.
  - (v) Study the diagram given below and answer the questions that follow:

- (a) Name process being studied in the above experiment.
- (b) What will you observe with regard to the level of water when this setup is placed in bright sunlight.
- (c) Mention one adaptation found in plants to overcome the process mentioned in (i).
- **4.** (i) Expand the abbreviation- ATP.
  - bbrevi<mark>at</mark>ion- ATP. [1]
  - (ii) Name any two nitrogenous bases.
  - (iii) Addition of salt to pickles prevents the growth of bacteria. Explain by giving two suitable reasons. [2]
  - (iv) Mention two adaptations in leaves to perform Photosynthesis.
  - (v) Given below is a diagram representing a stage during the mitotic cell division.

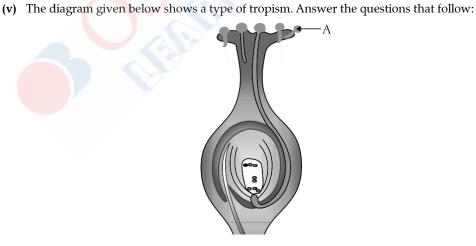

Answer the following questions:

- (a) Identify the stage.
- **(b)** Give a suitable reason for your answer in (a).
- (c) Name the stage that follows the one shown in the diagram.

[2]

[3]

| 5. | (i)   | Define- Excretion.   | [1] |
|----|-------|--|-----|
|    | (ii)  | What is the significance of Hepatic Portal Vein?   | [2] |
|    | ` '   | State two functions of vitreous humour.  | [2] |
|    | , ,   | Which gland secretes Glucagon? What is its effect on blood sugar level?  | [2] |
|    | (v)   | Draw a neat labelled diagram to show the internal structure of a human kidney.   | [3] |
| 6. | (i)   | Define- Gene.  | [1] |
|    | (ii)  | Differentiate between Cell wall and Cell membrane with reference to permeability.  | [2] |
|    | (iii) | State the function of Medulla Oblongata with a suitable example.   | [2] |
|    | (iv)  | Colour blindness is generally seen in males. Explain.  | [2] |
|    | (v)   | Study the diagram given below and answer the questions that follow:  |     |
|    |       | <ul><li>(a) Identify the structure.</li><li>(b) In which part of the ear is it located?</li><li>(c) What is the function of the part marked A?</li></ul> |     |
| 7. | (i)   | Explain - Accommodation of eye.  | [1] |
|    | (ii)  | Give two reasons for a sharp rise in world human population.   | [2] |
|    | (iii) | Mention two functions of Amniotic fluid.   | [2] |
|    | (iv)  | What is the difference between Phenotype and Genotype?   | [2] |
|    | (v)   | Draw neat labelled diagrams showing the cross sections of an Artery and a Vein.  | [3] |
| 8. | (i)   | Define - Pollution.  | [1] |
|    | (ii)  | Plants droop on a hot day even though the soil is well watered. Explain.   | [2] |
|    |       | Differentiate between Menarche and Menopause.  | [2] |

(a) Name the type of tropism.

(iv) State two harmful effects of acid rain.

- **(b)** Define the above mentioned tropism.
- (c) Give an example of a stimulant that helps in the growth of the part marked- A.
